PROTECTION FOR THE PUBLIC

Against Exactions of Both Labor and Capital is Urged on Congress by Senate Committee

(Associated Press)
Washington, Nov. 8.—Characterizing all strikes as "industrial barbarism," and declaring "there is no place in this country either for industrial despotism or labor despotism," the Senate steel strike committee submitted to the Senate its report today criticizing both the workers and employers.

The committee's main conclusion was that "the public has a right to determine that capital shall not arrogate to itself the right to determine in its own way those industrial questions, and it is the same as to labor, and the duty is upon Congress to provide some way of adjusting these difficulties."

FARMERS WANT CONFERENCE

The Farmers' National Council has issued a call for a conference between the farmers and wage earners at Chicago November 21st and 22nd, to adopt a joint plan of farmers and labor organizations to be used as a basis for a joint legislative reconstruction program.

EMPHATIC ANSWER

Eleventh-hour efforts by Samuel Compers to settle the coal strike were met last night by emphatic declaration from the government that injunction proceedings would be dismissed the instant the strike order was withdrawn—and not before.

LARGE CONGREGATION HEARD EVANGELIST

Last night the reading capacity of the church was taxed and people stood in the door to hear the evangelist as he preached on "He that covereth his sins shall not prosper, but he that confesseth and forsaketh his sins will find mercy." It was a gospel sermon and was the message the self-justified and self-righteous needed. Several came forward for prayer and there were several conversions. The solo by Mr. Boyd on "Jesus" was inspiring. The service for the young people yesterday afternoon conducted by Mr. Boyd was unique and very helpful. Several professed conversion. Yesterday Mr. Boyd entertained the fifth, sixth and seventh grades to their great delight on "The Prince of Peace." There will be service to-night beginning at 7:30. Preaching by Evangelist Dunaway at 8 p. m. Come out tonight. Reporter.

LEGION POST IS AGAINST BONUSES

In Favor of Aid for Disabled Men and Government Loans Properly Secured

Marion County Post No. 1, of the American Legion at its meeting Friday night, placed itself on record as opposed to any bonuses being given to ex-service men in the form of a gift. The post went on record as favoring educational aid to disabled ex-service men, and bonuses for totally disabled ex-service men, and for government loans, properly secured, to ex-service men for farms and homes. The Florida delegation to the Minneapolis convention will be notified of the action taken at Thursday night's meeting. The post is of the opinion that the general digging into the treasury that is now going on should cease, in order that the already heavy debt of the country might not be increased any more than is absolutely necessary. The post by the position taken wished also to emphasize the fact that the men who served during the war did so for reasons of patriotism and 100 per cent. Americanism. Various bonuses have been awarded to civilians getting employees in war work, and it would seem that there should be some reward for the men who were in the army, navy and marine corps, but the Marion county post is of the opinion that there should be some limit to this kind of thing.

At its meeting Thursday night, the post unanimously elected Miss Mary C. Marshall of the Marion County Hospital a member of the legion, and voted to present her with a membership. Miss Marshall served in France as a member of the army nurses' corps.

The following resolutions were adopted by Marion county post Thursday night:

Whereas, The American Legion is in a sense on trial before the American public and holds itself out as representing 100 per cent. Americanism, and as perpetuating the patriotism and the unselfish devotion to government and country which animated the service men in the late war; and

Whereas, The American Legion is in spirit and in fact against the selfish motives which have prompted the grabbing and snatching character of the dealings of some of the public with the government during and since the war; and

Whereas, There is a condition of industrial unrest due to a great extent to unusually high wages and to the same selfish desire for individual benefit at the public cost, which unrest would be undoubtedly augmented by the payment of cash bonuses to ex-service men; and

Whereas, The opportunity is now given to the American Legion to demonstrate its unselfish patriotism and to set a worthy example to the public by refusing to endorse or be a party to any procedure which contemplates further burdening of the United

OCALA IS ENROLLING IN THE RED CROSS

Are you wearing the Red Cross button of 1920? Remember that thousands of our boys are still in service at home and abroad. The hospitals are filled with our sick and wounded. Remember that the winter promises to bring untold suffering to women and children thru the wide-spread strikes.

Have you answered the third roll call? Up to last night 189 had enrolled in Ocala. In the first ward the enrollment was 32; second ward, 93; third ward, 52; fourth ward, 9; North Ocala, 3.

Today the Red Cross girls have invaded the business district and are enrolling hundreds. By night it is expected that the total will have mounted high.

Let your imagination have a little play. Picture the good turn that your dollar will do. You have had enough of drives. So has everybody. But the work of the Red Cross must go on. The world is suffering. Sacrifices are demanded.

It is said that men forget quickly. Do they?

PROCLAMATION BY THE MAYOR

Whereas, The 11th day of November, 1919, saw the end of hostilities in the great world war, in which our country was engaged, and such ending of hostilities marked the triumph of the principles and ideals for which America entered the war and upon which her glory and prosperity rest; and

Whereas, Such ending of hostilities brought relief and joy to millions of homes and made the anniversary of November 11th, 1918, a day to be set apart from other days; and

Whereas, Throughout the nation the anniversary of Armistice Day will be joyfully celebrated, and it is fitting and proper that Ocala and Marion county join therein;

Now, Therefore, by virtue of my office as mayor of the city of Ocala, I do hereby proclaim and declare Tuesday, November 11th, 1919, a day of celebration and gladness as "Armistice Day," and I do call upon all citizens to join in the celebration of that day. STATUS OF THE COAL STRIKE

Government is Determinedly Proceeding Against Men Responsible for the Trouble

(Associated Press)
Washington, Nov. 8.—The injunction proceedings against officials of the United Mine Workers of America will be pressed at Indianapolis today, Attorney General Palmer announced. Acting President Lewis of the mine workers, refused to accede to the government's demand that the strike order be recalled pending mediation of the controversy.

WAITING ON THE COURTS

Pittsburgh, Nov. 8.—The general situation in the coal strike in this district showed very little change, if any, today, according to reports. Both the operators and miners awaited with confidence the result of the proceedings at Indianapolis. The operators believe the move will mean the end of the strike, while union officials are just as confident it will not.

GOVERNMENT AGGRESSIVE

Indianapolis, Nov. 8.—The mine workers' attorney asked at the opening of court here today that the proceedings be postponed a week or ten days, in the hope that meanwhile the strike might be settled. The government objected and the court thereupon took up the motion to dissolve the injunction. The government took the position that the case was too important to admit of delay.

A GREAT FALLING OFF

Washington, Nov. 8.—The production of bituminous coal last Saturday, the first day of the strike, was estimated by the geological survey at less than 700,000 tons. The normal daily average is 2,000,000 tons.
